20th January 2020

Dear Parents and Carers,

Year 10 have been showing great dedication to their studies and it is pleasing to see a focused work ethic as we approach the next set of Trial exams. An exam timetable will be sent out shortly with the details of exams for Electronics, Computing, Economics and RE. DT Product Design and Graphics are using the time to complete the coursework for the approaching deadline.

In order to support their revision and preparation, we have issued every student with a blank revision timetable. Please find attached a copy for your reference. Students can use the template to help organise their revision, homework and other commitments.

Our focus is on making progress from the previous exams and we have been guiding students to analyse their performance and identify the areas in which they need to improve. We encourage students to regularly speak with teachers, read through and analyse mark schemes (accessed on the exam board websites), as well as practice different questions from past papers (also available on exam board websites and in revision guides).

There are various support sessions that are also available for students to find extra help and have their questions answered:

Monday from 3:30: Computing (ICT1), Product Design (DT Hub) and Electronics Coursework (A6)

Tuesday 1pm-1:30: Economics (C4)

Wednesday lunchtime: Electronics Theory (A6)

For RE, students should speak with their individual teachers.

Furthermore, should any student wish to work in a silent study space before or after school, they should speak to myself or their tutor to facilitate this.

We thank you in advance for your support.

Kind regards.

Ms Clarke
Head of Year 10
