Revision and study in preparation for exams

- Start off with self-assessing your knowledge and confidence with the specification.
- Go through each section of the specification and read over all of your class notes. Research shows that it is good practice to read over your notes and condense these down into smaller notes (maybe using flashcards).
- Use the YouTube videos to help supplement any further revision. There may be a topic that you are unsure of and are currently struggling with.
- Once you are confident with the theory, have a go at attempting a few past paper questions. It is good practice to use the mark scheme to help you prepare your answers.
- Practice as many multiple choice questions as possible. Mark your answers against the mark scheme and for those you got wrong sit down and study the answer again – ask yourself why you got it wrong and have a look at the other alternatives.
- Use Fronter for additional resources (PowerPoint slides etc).

****All resources are uploaded onto Fronter, this include the following:***

 Chapter 1 What is financial Accounting	12/03/2020 07:50	File folder
 Chapter 2.3 Double Entry	25/11/2019 09:46	File folder
