**RE: WORK Experience 2022**

I am a student at Beths Grammar School and I am writing to enquire whether you would be able to offer me a work experience placement, from Monday 3rd October to Friday 7th October 2022, when I will be a Year 11 student aged.....

I am specifically looking for a placement at a veterinary practise as I intend to go to university to study veterinary science and hope to eventually become a vet myself. In support of this, I have a great love of all animals and I have gained a lot of experience in caring for them.

Next state why you have written to their company

For example, at home I currently have a rabbit, a guinea pig and a cat. In the past I have also owned 2 hamsters. In addition to this, I love horses and like to ride whenever I have the opportunity, I have also gained a lot of experience of feeding and caring for lambs, sheep and cattle on my grandmother's farm.

I would be very grateful if you could let me know if you will be able to offer me a placement by the end of March 2022, as I will need to inform my school by then. If you would prefer for me to attend an interview, I can be available on just about any day after school from 4pm, or at any time on Saturdays.

Next set a date by which you **MUST** have a reply from them. Companies will need to know you have a deadline of 22<sup>nd</sup> April to find a placement. To show willing and commitment, you could offer to attend a meeting with them, but don't forget to say when this would be possible!

Thank you for taking the time to read this letter and I look forward to hearing from you soon.

Yours faithfully
