## MESSAGE FROM THE SENIOR DEPUTY HEADTEACHER

### Mr Neylan running the London Marathon

After months of training, often in the heat, October 2nd is almost here. On Sunday I'm taking part in the sporting spectacular that is the London Marathon along with around 50,000 other entrants, and perhaps some of you. This will be my seventh marathon and the second time I've run London. I don't know whether I'm excited, nervous or even fully ready. It became real on Wednesday evening when I collected my race number from the Excel Centre.

This time around, I am raising money for Crohn's and Colitis UK, one of the smaller charities, and a cause that's close to my heart. If you want to find out more about these conditions, go to

<https://crohnsandcolitis.org.uk/>

If you'd like to donate, I have a fundraising page

<https://tcslondonmarathon.enthuse.com/pf/matthew--neylan> or you can use the QR code:

Any donations no matter how small will be very much appreciated by Crohn's and Colitis UK.

If you see me on the course, please give me a shout (I might not look good) and finally, if any of you are taking part, I wish you the very best of luck for Sunday!

### **Student Lanyards**

Students have been issued with an ID badge and lanyard so they can tap in when coming onsite and out when leaving. This has been in circulation for the past few weeks and now all should be familiar with this as part of their daily routine. Registering in/out is part of the School Behaviour Policy and is compulsory for all students to do.

### **Extra-Curricular Clubs**

All school club activities have been shared with students and can be found in this VIP and on the school website. There are plenty of clubs to participate in and students are encouraged to sign up to as many that they are interested in.

### **International Culture Week**

This week the Modern Foreign Language department celebrated “Beths International Week”. On Monday students experienced taster lessons in Polish as part of the European Day of Language. Students took part in form time quizzes, cultural awareness lessons and food tasting events! At the end of the week we celebrated International Dress Day, where students can dress up in clothing from their own family or friend’s culture, a country they love or a country that they would like to learn more about.

**Have a great weekend,  
Mr Neylan**

# MAYPLACE PRIMARY SCHOOL

## FRENCH OUTREACH

This year, Mayplace Primary School re-launched their annual French Market, and we were pleased to be asked again to send some of our outstanding Sixth Form linguists to support in the delivery of this event. The MFL department has supported Mayplace Primary for several years and our students are always commended for their enthusiasm for the French language and how they support and encourage the children in learning it. Our students this year did not disappoint, and the Headteacher at Mayplace Primary contacted Mr Blyghton the following day, complimenting them on their supportive and mature engagement with the children, along with personal letters of thanks to be passed on to each of them. The children really enjoyed practicing French with new people and the class teachers reported that they were particularly impressed with their delivery of the lessons. I am very grateful to our students for their contribution to this event; they are a credit to the school.

**-Mrs James, 2ic MFL**

On Monday 26th September myself and five other Year 12 students went to Mayplace Primary School to help run annual French Market in celebration of European Day of Languages. Each of us was responsible for our own stall, selling items such as pastries, clothing, stationery, fruit, vegetables and toys. Pupils followed a dialogue sheet to buy these items in French. We also had the opportunity to teach a French lesson to the Year 3 classes. They had only ever had one French lesson before, and we got to teach them certain phrases and lead some activities with them. I was very impressed with how eager the students were to engage in learning the language and immerse themselves in it. I am truly grateful that I was invited to take part in this experience.

As a native French speaker, I really enjoyed participating in the interactive market as well as teaching an engaging lesson. We came up with activities that the students genuinely enjoyed and wanted to take part in, which was fantastic to see.

# KEEPING YOUR CHILD SAFE ONLINE

At National Online Safety, we believe in empowering parents, carers and trusted adults with the information to hold an informed conversation about online safety with their children, should they feel it is needed. This guide focuses on one of many issues which we believe trusted adults should be aware of. Please visit [www.nationalonlinesafety.com](http://www.nationalonlinesafety.com) for further guides, hints and tips for adults.

## 10 tips for parents and carers HOW TO BE GREEN WITH YOUR TECH

Right now, humans aren't living sustainably: we're taking too many resources and not leaving the world in a fit state for future generations. Old tech products are a clear example: If we throw them away, the poisonous lead and mercury inside can get into the food chain through the soil. Recycling tech, though, has its own issues: it's often exported to countries where the law doesn't protect people from hazards. Whole villages (including children) sort through discarded devices to remove useful parts and substances like gold, silver and copper – often putting their health at risk. Finding ways to re-use tech is the greenest option.

So what can we do with those cupboards and drawers full of old phones and unwanted computers?  
**Reuse, recycle, donate or sell them!**

### 1 DONATE THEM TO CHARITY

There are lots of charities that redistribute unwanted tech to worthy causes, either in the UK or in developing nations. If your old products are still working, this is a great option – as it means that new products don't have to be made. Search online for your nearest place that does this.

### 2 REMEMBER THE BATTERIES

Almost all batteries can be recycled – even the little 'button' ones from smaller gadgets. You could choose a box at home or school to keep used batteries in, and then take them to a designated place that collects them. Be very careful, though – button cells can be deadly if eaten by small children or pets.

### 3 USE YOUR ONLINE SAFETY KNOWLEDGE

If you're recycling, selling or repurposing any of your devices, make sure that all your personal data, private photos and so on have been deleted before the tech leaves your hands or is connected online.

### 4 REUSE THEM

Old smartphones can be used as webcams, security cameras, baby monitors or pet cams: there are apps that will configure them to do this. You can also turn an outdated phone into a TV remote control, an alarm clock that wakes you up with your favourite track, or a media centre you can take to places where you wouldn't risk your new phone.

### 5 TURN IT INTO SOMETHING NEW

Smartphones are more powerful than most older computers. If you have an unwanted android phone, it's quite easy to create a new computer – you could use an old TV as a monitor, meaning you just need a mouse and keyboard. There are also small devices you can buy which let you do the same with iPhones.

### 6 RETURN THEM

Return devices to the manufacturer or retailer you bought them from. Some manufacturers take responsibility for their products and accept them back, to refurbish and redistribute. If they don't, you could contact them and ask why: the more consumer pressure there is on shops and manufacturers, the more likely they are to act in a greener way.

### 7 SUPPORT SCIENCE

Let your old devices help modern research. Scientists currently investigating topics like far-off star systems, cancer treatment and earthquakes need enormous computing power. If your unwanted device is WiFi enabled, for example, you can connect it to a network so that it can boost scientists' research.

### 8 SELL THEM

This is also a green option as it means that fewer devices have to be produced. On top of that, you could also donate some of the money you make to an environmental charity.

### 9 RESEARCH DISPOSAL METHODS

If your device is beyond repair and no one wants it, get rid of it safely through a specialist tech disposal company. Check that your device won't be shipped off to another country for processing.

### 10 KEEP THINKING

There's no such thing as 'too many' ways to help our planet! If you come up with a better idea than ours, contact National Online Safety and tell us.
