

## Alumni

We are really keen to reconnect with as many ex-students as possible to hear your news and successes.

It does not matter when you left School, whether you are in higher education or employment, whether you still live nearby or have moved further away, there are many ways you can get involved in becoming a role model, sharing your success and highlighting the challenges and lessons you have encountered.

There are many ways in which you can become involved and help support current students which do not need to be onerous or time consuming, such as:

- Providing information about your achievements for us to use on displays and website
- Giving a presentation
- Delivering a workshop
- Acting as a mentor
- Providing a work placement
- Offering advice on an application for specific companies e.g., KMPG, EY, JP Morgan
